

Capability Statement

Core Competencies

Our primary objective is to assist our clients in meeting their cybersecurity goals.

Cardinal Security Group supports the entire RMF Lifecycle for system ATO accreditations. We perform security assessments to identify overall security posture and identify gaps in security coverage. Our specialty is internal security assessments and gap analysis (using NIST SP 800-53 or CIS Top 18) but we also provide the following services:

- Independent Verification and Validation (IV&V)
- Assist in baseline control selection process
- Develop and maintain SSP and associated ATO documentation
- Perform vulnerability scan analysis
- Implement and monitor security controls using change management and POAMs.

Differentiators

Cardinal Security Group employees are passionate about security and the need to protect information systems and the data they process. Our security experts have supported cybersecurity efforts within DoD, the Federal Government, and various civilian agencies. We know the requirements and will provide a thorough, quality assessment with understandable and meaningful results.

- We enforce a strong work ethic and strive to make a difference by providing a trusted, valued, security service for our customers.
- We are a small team with minimal overhead equating to lower rates
- Cybersecurity Analyst positions require relevant security certifications
- Cybersecurity Engineer positions require relevant security certifications and at least one technical certification.
- 75% of personnel hold security clearances

Past Performance

Cardinal Security Group relies heavily on the expertise, education, and security 'roots' of its personnel previously contracted to support the cybersecurity mission of agencies such as Marine Corps Systems Command (MCSC), FEMA, US Patent and Trade Office, and DCMA.

- USPTO: Deliverables were organized, well written, of superb quality, free of mistakes, and delivered on-time. Helped us improve our security posture in many control areas - *Krzysztof Pasternak (former Security Assessment Manager USPTO Cybersecurity Division), kristofp7@gmail.com, (919) 935-2225.*
- MCSC: Exhibited high integrity and was self-motivated, dependable, passionate, highly organized, and produces work of the highest quality - *Angelia Vicchiollo (former ISSM MCSC PG-12), avicchiollo@ustda.gov (571) 216-2143.*

Company Data

Cardinal Security Group was founded in April 2020 on the premise that security audits are not only the pivotal point in the ATO process, but they should also provide some value...some return on investment.

We strive to make a difference, provide security expertise, technical expertise, and will do what is right for our customers. We are cyber-vigilant and remain flexible and ready to integrate into or compliment your existing cybersecurity strategy.
